

BUH3-2-37 Balak Universal Horizontal 3-axis Mill | 2 tables | 37 kW

Our universal 3-axis horizontal mill has been built especially for high production requirements. The two-table system enables continuous machining. The machine keeps working while the already machined workpiece is replaced in second position. This compact machining center features a wide range of available options to customize your machine to your exact needs, including workpiece loading and unloading automation.

Key features:

3-axis | 2 working tables | 1 spindle | 1000+ customization options
